Mission Statement

Queens Centers for Progress is committed to providing person-centered services and supports to children and adults who have developmental disabilities. The goal of these services and supports is to promote independence, community involvement, and quality of life.

Organizational History

Queens Centers for Progress was founded 70 years ago. From providing educational and therapeutic services to a small group of children, QCP has grown to become a major provider of services for people with developmental disabilities in Queens County and the New York metropolitan area. The agency currently provides a comprehensive array of services to more than 1,200 people and their families daily.

Programs are designed to meet the specific needs of people of all ages. Assistance is offered in all aspects of life including a place to live and work, health care, training and education, therapy and leisure activities.

At the core of all the agency's services is the deeply held belief in the development of the individual. QCP believes that all people can learn and that all people – in spite of any

developmental disability – can make meaningful choices about their lives and can make real progress toward greater independence and integration into the broader community.

On behalf of our Board of Directors, staff, and the 1,200 people who rely on us daily for services, thank you for your consideration.
